

SAVE THE DATE:

The Second Annual SkyBridge Alternatives (SALT) Conference
May 19-21, 2010 • Bellagio, Las Vegas • www.saltconference.com

"We're in a very unusual period...a period of great opportunity." - Michael Milken

Mark your calendars for the **second annual SkyBridge Alternatives (SALT) Conference**, an invitation-only event that promises to provide an unmatched opportunity to connect with global leaders and network with your industry peers.

About SALT

We look forward to building on the tremendous success of the 2009 SALT Conference, where over 500 investors, asset managers, and other industry leaders came together to discuss the current economic environment and the future of alternative investing. Public policy officials, capital allocators, and managers debated the government's role in the financial markets, allocation trends, the importance of risk management, and the evolving regulatory landscape.

If you missed or would like to revisit any of the 2009 SALT Conference sessions, the video footage and slideshow presentations are available on the SALT website, www.saltconference.com.

SALT 2010 News

We are pleased to announce that President Bill Clinton will deliver the keynote address at SALT 2010! Over the course of 3 days, speakers and attendees from around the world will discuss current global issues as well as investment ideas and strategies within the context of a changing economic environment. Please be advised that SALT 2010 attendance is projected to exceed 750 guests, so capacity will be extremely limited. More information concerning SALT 2010 registration and the agenda will be posted online as it becomes available.

We look forward to seeing you in Las Vegas.

Best regards,

Scott Prince and Anthony Scaramucci
Managing Partners, SkyBridge Capital
